LAV
HORECA

FROM VISION TO INNOVATION

Since its founding in Kütahya in 1948, Gürok Group has been a beacon of innovation and commitment, making lasting advances across different industries. The Gürok Group has established a global reputation by adhering to the values of excellence, sustainability, and a bold vision for the future. Guided by our "Act Brave, Think Unlimited, Do Good" motto, Gürok Group has reached a presence in over 140 countries, and group companies employ over 5000 people across 12 brands in the industry, tourism, construction, and FMCG sectors. Gürok's achievements stem from a harmonious blend of cultural heritage and forward-thinking ingenuity. Through its brands, the group delivers exceptional products and services, consistently raising industry standards while contributing to social and environmental well-being.

At LAV HORECA, we embody Gürok Group's unwavering commitment to innovation, sustainability, and excellence. Rooted in over three decades of glassware design and production expertise, we serve as a reliable partner to HORECA professionals across the globe. Operating from two of the world's largest production facilities with a daily capacity of 2 million pieces, we combine advanced manufacturing processes with a customer-centric approach to meet the evolving demands of the service industry. From our rich legacy, we were born as a brand poised to redefine the HORECA industry.

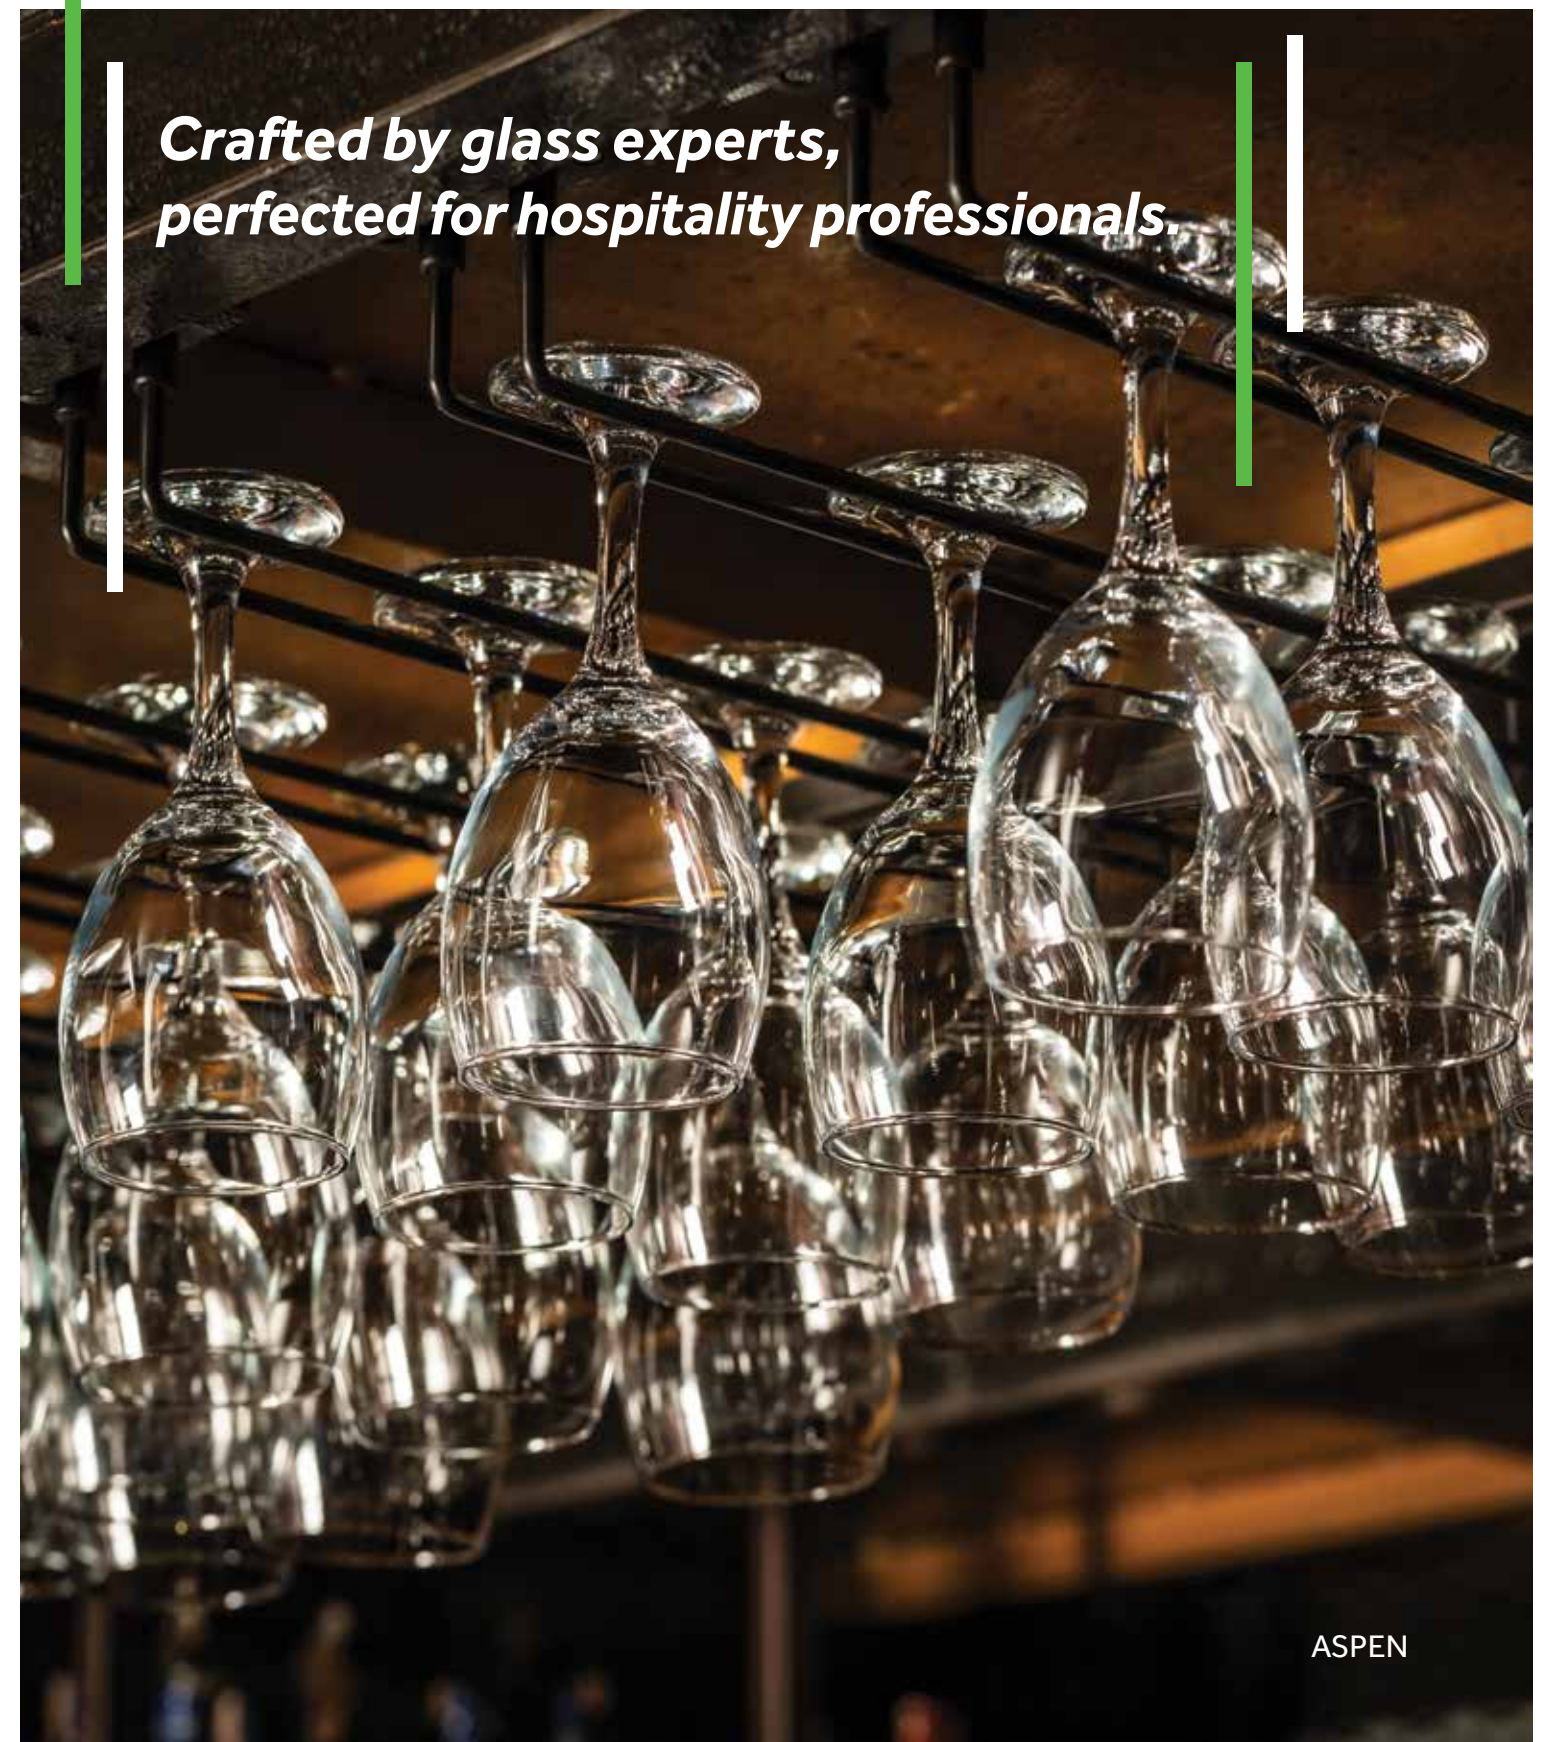

Our showroom, which serves as a strategic base on Madison Avenue in New York, has helped us establish a strong presence with a focus on the North American market. The

large warehouse in New Jersey and robust, transparent supply chain ensure that our business partners have reliable access to tempered, stackable, and fine-rimmed glassware that merges elegance with practicality. Our design team creates and develops each piece to optimize operational efficiency and enhance service aesthetics, thereby creating unforgettable experiences for their guests on every level.

In a competitive market like HORECA, it's our team's dedication to quality and reliability that truly makes LAV HORECA stand out. We create value by offering lifetime warranties, embracing sustainability at every step, and tailoring solutions to meet the unique needs of our partners. Building trust and fostering long-term relationships isn't just a goal for us—it's how we do business. By paying close attention to feedback from the industry, we stay ahead of the curve, bringing innovative designs that set new standards for catering and service. Our aim is to inspire, delight, and collaborate with our clients in a way that transforms ordinary experiences into something exceptional. We don't see ourselves as just suppliers—we are visionary collaborators, working hand-in-hand with establishments to deliver excellence in every interaction.

As Gürok Group continues its journey of transformation and innovation, LAV HORECA stands as a testament to its values—unlimited thinking, brave action, and doing good for people, the planet, and society. Together, we shape the future of the HORECA industry with a commitment to excellence and positive impact.

A BETTER FUTURE

LAV HORECA is dedicated to shaping a sustainable future for the hospitality industry through a focused strategy for 2020–2025. Centered on Better Company, Better Products, and Better World, this approach integrates ethical practices, innovative solutions, and environmental responsibility to meet the unique needs of the sector.

Aligned with the UN Sustainable Development Goals, we have achieved significant milestones, including reducing greenhouse gas emissions by 5.9% and water consumption by 16.8%. Our durable, eco-friendly glassware is designed to meet the demands of professional kitchens, incorporating sustainable raw materials and supporting circular economy principles.

Looking ahead, LAV HORECA remains committed to advancing innovation, expanding circular practices, and collaborating across the HORECA ecosystem to create impactful, sustainable solutions for the industry.

LAV HORECA's Contribution to The UN Sustainable Development Goals

- 4

Quality Education:
We invest in the professional and personal development of our employees and prepare them for the future. We partner with universities. We contribute to children's access to education through our community investment in education.
- 5

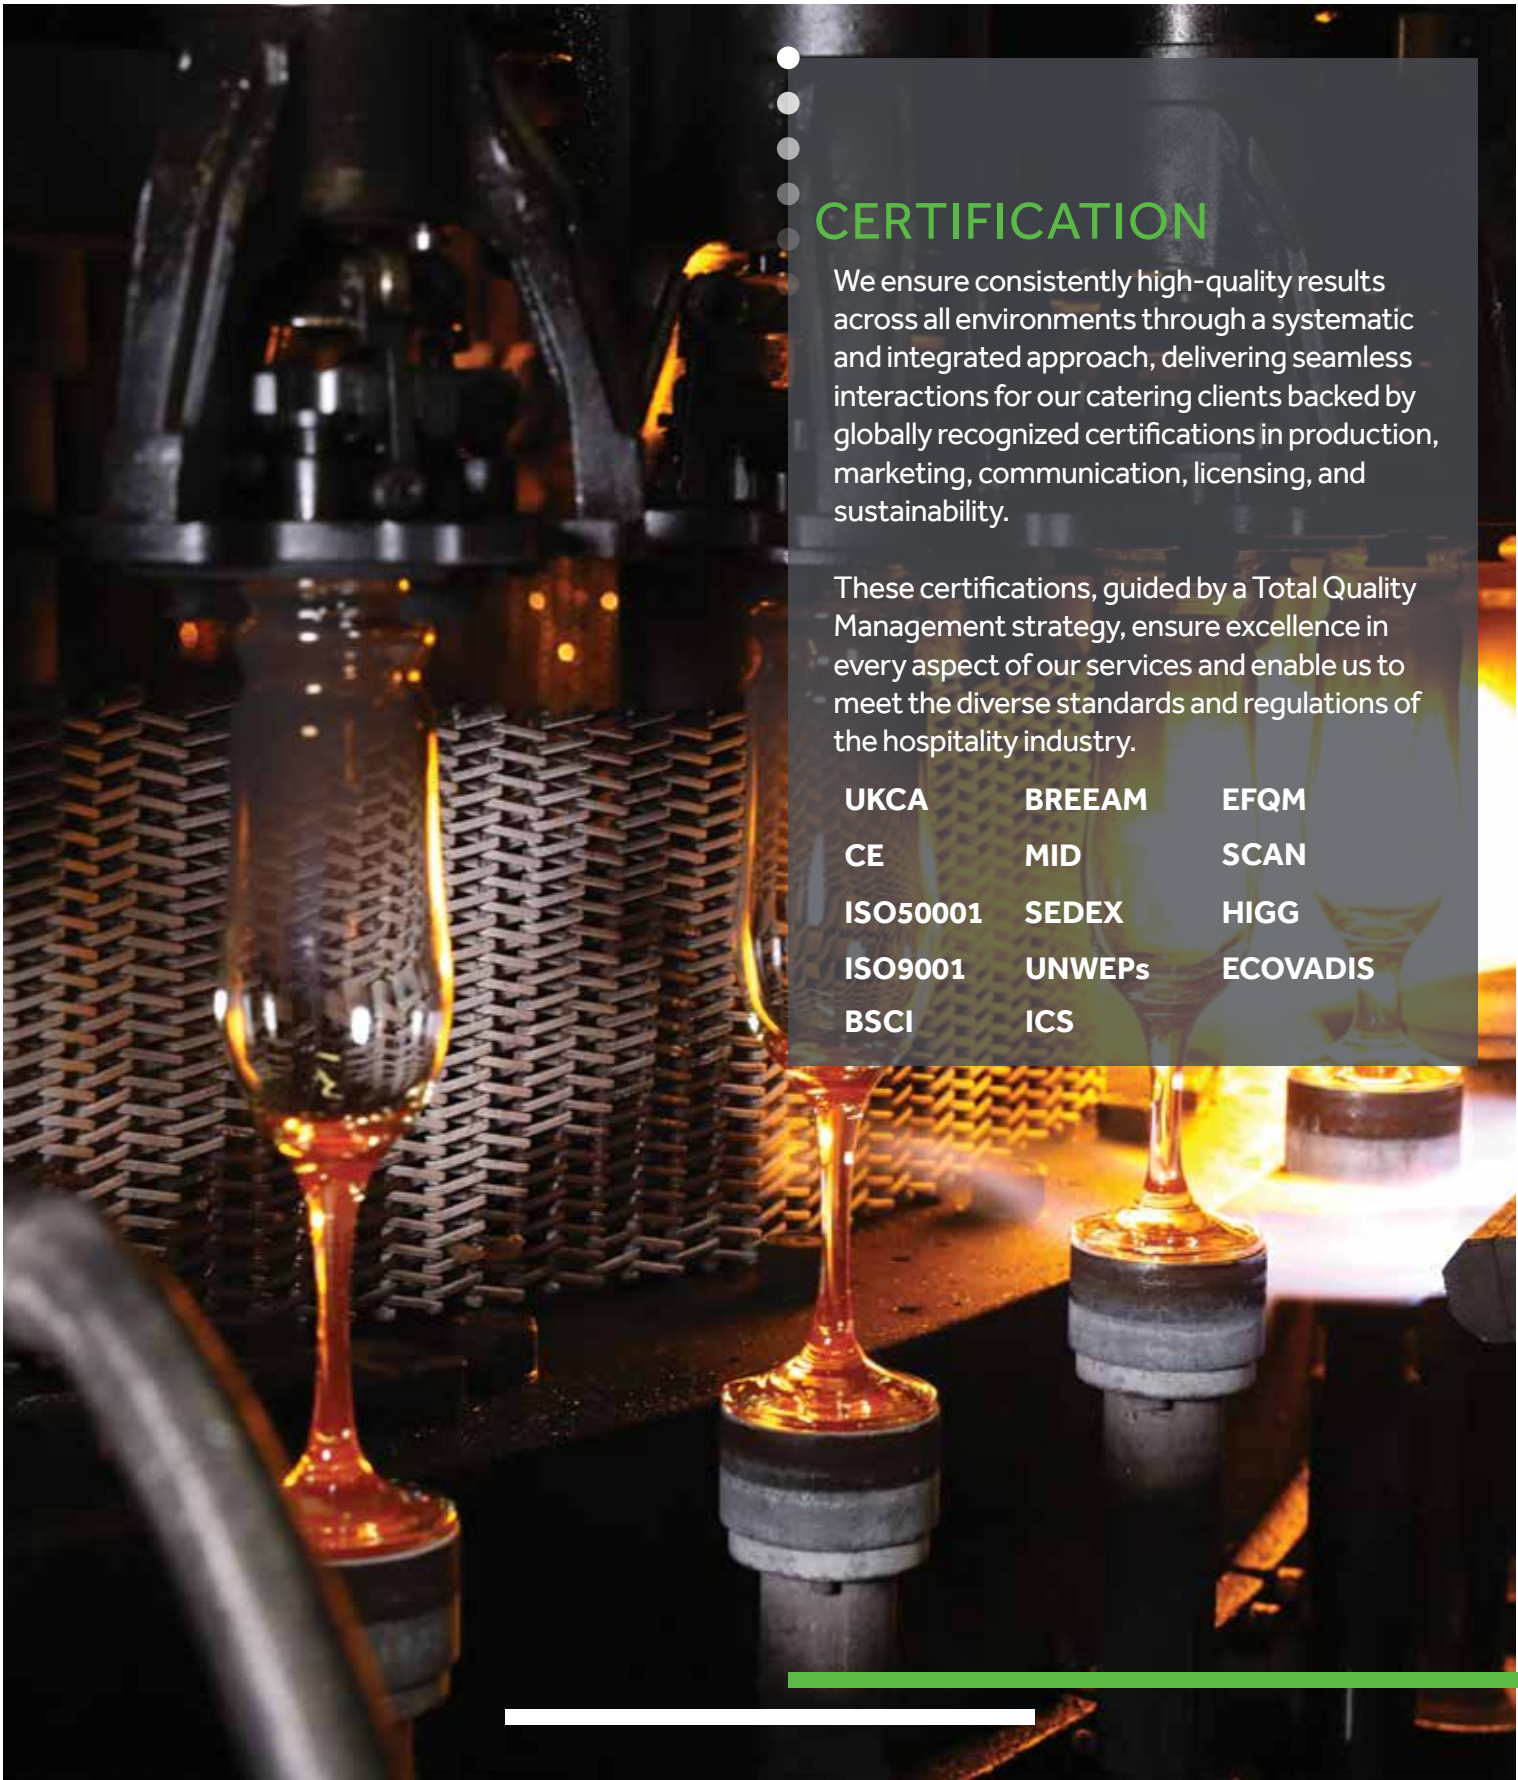

Gender Equality:
LAV HORECA believes the empowerment of women is the lifeline to any community. Our goal is to increase the number of female employees, the ratio of female executives and the skills of women of any age through social responsibility projects.
- 6

Clean Water & Sanitation:
Access to clean water is a crucial life threatening global environmental issue. We as LAV HORECA are therefore developing projects to reduce water consumption in our manufacturing processes and investing in new technologies.
- 8

Decent Work & Economic Growth:
At LAV HORECA, we strive to be a safe employer, a reliable partner and a brand that provides quality with each product. We develop purchasing practices and social responsibility projects that contribute to the well-being of communities.
- 9

Industry, Innovation & Infrastructure:
We invest in low-impact, high-value products and and priotise collaborations in R&D. We create competitive advantage by manufacturing our own machines. We follow the principles of Industry 4.0 and digitalise our processes.
- 12

Responsible Production & Consumption:
LAV HORECA focuses on resource-efficient production without compromising quality or safety. As LAV HORECA we support circular economy principles, and works towards reducing plastic use and increasing glass recycling.

CERTIFICATION

We ensure consistently high-quality results across all environments through a systematic and integrated approach, delivering seamless interactions for our catering clients backed by globally recognized certifications in production, marketing, communication, licensing, and sustainability.

These certifications, guided by a Total Quality Management strategy, ensure excellence in every aspect of our services and enable us to meet the diverse standards and regulations of the hospitality industry.

UKCA	BREEAM	EFQM
CE	MID	SCAN

LOGISTICS

LAV HORECA ensures swift and reliable logistics across 145 countries, supported by an extensive network of 350 sales partners and global hubs, including offices in New York and Milano and a dedicated warehouse in New Jersey.

Our sustainable packaging and shipping solutions guarantee that products are always available and delivered in perfect condition, enhancing efficiency for our partners. Backed by a transparent and timely logistics team, we prioritize customer satisfaction while maintaining our commitment to eco-friendly practices.

FINE RIM

The fine-rim combines elegance with functionality, offering a refined experience without sacrificing durability.

- The thin rim enhances the sensory experience, providing a more delicate and refined sip, which is ideal for establishments looking to elevate their beverage service. This sets a higher standard for fine dining or upscale bars.
- Despite the fineness, these glassware maintains the resilience necessary for professional environments, ensuring that sophistication and durability go hand in hand. Fine-rim glassware offers both elegance and performance.

NICE

Explore Our
Stackable
Collection

STACKABLE

LAV HORECA's stackable glassware offer a practical solution without compromising on style or quality.

- Designed with space efficiency in mind, these glasses can be easily stacked to save valuable storage space. Each glass is crafted to nest securely, preventing tipping and breakage.
- Despite their stackable design, they maintain the aesthetic appeal and functional excellence LAV HORECA is known for. These glasses are perfect for busy environments where efficiency and elegance must go hand in hand.

İSTANBUL, CAMBRIDGE, VALLETTA

Explore Our
Tempered
Collection

TEMPERED

Tempered glassware offers numerous advantages for HORECA establishments, combining strength, sustainability, and style. Its durability, being up to five times stronger than regular glass, ensures resistance to breakage even under heavy use, reducing costs and waste. Designed to endure sudden temperature changes, it is ideal for serving hot beverages like coffee, tea, and mulled wine, while remaining unaffected by industrial dishwashers. Beyond its practical benefits, tempered glassware elevates beverage presentation with its distinctive feel and appearance, enhancing the customer experience.

ROTTERDAM, AMSTERDAM, EDINBURGH

LEAK PROOF

LAV HORECA's leak-proof containers from represent a game-changing solution for sustainable takeaway and delivery. Designed to reduce reliance on single-use plastics, these containers revolutionize global food and beverage delivery through eco-friendly practices. The robust construction and secure, airtight seals prevent leaks, making them ideal for safe and efficient transport of food.

In professional kitchens, these containers ensure food safety by maintaining freshness and preventing cross-contamination and they optimize storage space. Durable glass containers provide a greener, more sustainable alternative while enhancing operational efficiency and supporting the industry's shift toward environmentally conscious practices.

A SYMBIOSIS OF ARCHITECTURE & GLASS

At LAV HORECA, we believe in the interconnectivity of design disciplines, where one form inspires another. By fusing architectural details with the practicality of professional glassware, the Archie line exemplifies this principle. Inspired by the sweeping elegance of structural arches and the bold aesthetics of Art Deco, this collection strengthens the connection between table settings and the spaces they inhabit.

Now expanded to include seven new designs, the Archie collection offers nine versatile pieces, ranging from whiskey and cocktail glasses to tumblers and specialty barware. HORECA professionals will recognize each glass as a clever solution, precisely constructed to harmonize form and function. The robust shapes and carefully calibrated capacities cater to a wide array of uses, whether presenting a classic Negroni in the short tumbler or a sparkling spritz in the taller options.

THE BALANCE OF BEAUTY & FUNCTION

Our design team drew inspiration from the stunning island of Sardinia, known for its timeless beauty, rich culture, and exquisite Mediterranean charm. Just as Sardinia effortlessly balances rugged landscapes with refined coastal elegance, the Sardinia Series blends aesthetic sophistication with professional functionality to create a glassware collection that stands out in the HORECA world.

The Sardinia Series presents a comprehensive collection of eight expertly crafted designs, each tailored to elevate the presentation of wine, cocktails, martinis, and champagne. Sardinia caters to the diverse needs of high-end establishments by offering a range of forms and capacities, ensuring the precise and stylish serving of every drink. Crafted using our newly adapted double-piece production technique, Sardinia is a testament to precision and innovation.

CARAFE

İSTANBUL COVERING EXCELLENCE

The Istanbul Carafe, the newest addition to the Istanbul series, brings a fresh perspective to beverage service by combining retro-inspired design with cutting-edge practicality. Its compatibility with the matching glasses as ideal covers elevates its usability in HORECA settings, offering a practical solution for dynamic service environments. This innovative pairing is more than just an aesthetic option; it also provides a professional advantage. The glasses, when used as covers, ensure beverages remain hygienically protected, making the carafe perfect for outdoor dining or open-air events where maintaining cleanliness is paramount.

COLMAR ART OF FINE SERVINGS

The Colmar series was envisioned with the goal of delivering a refined and contemporary wine and champagne experience. Each glass is meticulously crafted using a two-piece production technique, with a stem-bonded construction that offers both durability and elegance—making it ideal for the demands of HORECA professionals.

Designed with flawless proportions and a fine rim, Colmar ensures an elevated sensory experience by enhancing the aromas and flavors of beverages. Its tempered glass structure provides the strength required for high-traffic use, while maintaining the sophisticated aesthetic sought after in upscale hospitality settings.

GOTHIC REIMAGINED

The Budapest line is inspired by the city's iconic Gothic and Gothic Revival architecture, reinterpreting its intricate beauty with modern and minimal design. Just as Matthias Church and the Parliament Building captivate with their pointed arches and graceful details, this collection echoes their timeless charm in a sleek and contemporary style.

The Budapest line, which includes a whiskey glass, two long drink glasses, and a tea glass with a matching saucer, is versatile enough to serve sophisticated beverages as well as casual elegance. Whether serving an artisanal cocktail, a classic whiskey neat, or a deep brewed tea, each piece elevates the experience. The Budapest Series combines the old and new, bringing the grandeur of Gothic architecture to the contemporary table. With its distinct design language and practical versatility, this collection transforms every serving occasion into an unforgettable experience.

BRUGGE

CLASSIC COMFORT, MODERN APPEAL

The Brugge series showcases refined simplicity, featuring smooth, vertical lines that create a sense of familiarity and comfort for guests. This subtle nod to classic forms enhances the hospitality experience, offering a welcoming yet refined presentation for beverages of all kinds.

This collection includes bowls, mugs, and glasses for soft drinks and long drinks, designed to seamlessly integrate into professional table settings. The Brugge mugs, with their smooth finish and ergonomic handles, are ideal for serving comforting beverages like teas, coffees, or mulled drinks. Meanwhile, the long drink glasses bring an understated elegance to casual service, while the bowls are perfect for versatile uses. The Brugge line is crafted for the demands of HORECA establishments. Its approachable yet stylish design ensures a sense of warmth and sophistication, making every serving moment feel familiar.

REDEFINING FOOD DELIVERY

The Kyoto line provides a modern solution for HORECA establishments that want to combine sustainability and functionality. These glass containers with airtight, leak-proof lids, are an eco-friendly alternative to disposable packaging, making them ideal for not just storage but also takeaway and delivery services.

Kyoto has now expanded with the addition of 3 different two-compartment models, which feature an innovative design with a durable glass divider. This unique feature ensures the separation of foods and helps maintain their freshness and integrity during transport. It is perfect for delivering complete meals, side dishes, or sauces alongside main courses. Kyoto containers, which are designed for heavy repeated use, reduce waste while also supporting your establishment's commitment to sustainability. Whether used for meal prep, takeout, or table-ready presentations, the Kyoto Series is both practical and environmentally conscious.

Lightweight Charm

The Goa bowls stand out for their lightness and refined design, offering an exquisite solution for desserts, snacks, and bowl presentations. Available in two sizes, they combine practicality with a touch of elegance, perfect for accentuating any tabletop.

MALLORCA

Nature's Geometry

The Mallorca glasses embody the beauty of nature's geometry, with their textured and patterned surface reminiscent of organic forms. The tactile design not only adds a visual appeal but also offers a pleasing grip, making them both practical and sumptuous. Perfect for whiskey and cocktails, the Mallorca harmoniously blends natural inspiration and contemporary craftsmanship.

HOUSTON

Rebellious Spirit

Exuding a feeling of modern-day sophistication, the Houston liqueur and shot glass stands apart, with an assurance exuding in every sleek line of this fine design. Crafted just for the professionals, it delivers clean lines and a solid built in a tiny body. The Houston glass is ideal for serving bold, spirited creations, combining practical functionality with timeless style for any contemporary setting.

OLLERIA

Craft Expert

The Olleria Beer Glass from LAV HORECA is designed to highlight the distinctive character of craft beers. Its tapered shape enhances carbonation, ensuring a steady stream of bubbles while preserving the beer's frothy head. This form also directs the aromas upward, elevating the tasting experience by concentrating the nuanced notes of hops, malts, and yeast.

INSPIRED TO IMPRESS

LAV HORECA Nice is inspired by the elegance that characterizes the French Riviera, turning every served meal into a manifestation of refinement. From gastronomic restaurants and luxury hotels to exclusive catering events, Nice stemware and tumblers combine aesthetics with skilled functionality, setting the bar to match a higher standard.

With their angular, elongated bowls, the Nice wine glasses are crafted to enhance the sensory journey of every wine. The larger glasses enhance the rich bouquets of full-bodied reds, while the smaller versions accentuate the crisp aromas of delicate whites. Complementing the stemware, the minimalist yet sophisticated Nice tumblers offer versatility for serving everything from artisanal cocktails to sparkling water.

We engineer each piece for professional use, combining durability, scratch resistance, and a fine rim to create the ultimate guest experience. The Nice family fully embodies the harmony of luxury and practicality, ensuring that every little detail in your establishment speaks to excellence.

LET THE AROMA FLOW

The volume and shape of a wineglass play a crucial role in unlocking the potential of wine. Designed with precision, LAV HORECA's glasses feature generously curved bowls that allow the wine to breathe, enhancing the release of aromas and creating a more immersive tasting. The carefully tapered rim directs the flow of the wine to the palate, emphasizing subtle flavor notes. Whether serving a bold red or a delicate white, the balance of form and function in our glassware ensures that the aroma and taste are fully expressed.

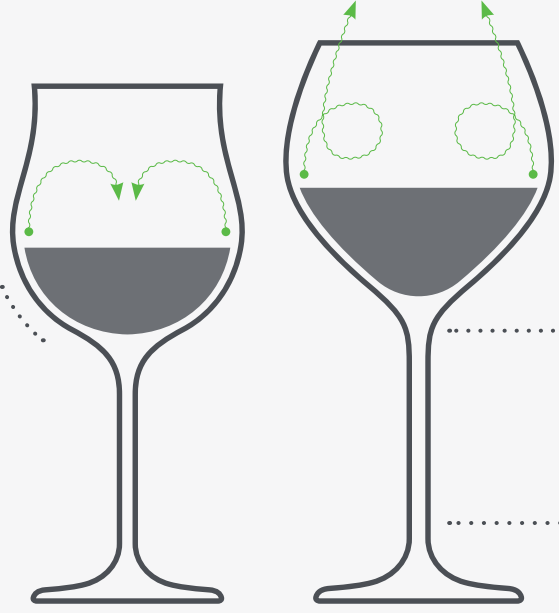

The bowl of the glass is wide to capture the wine's aroma and bouquet. Large-bowled glasses are preferred for red wines, as the increased oxygen exposure enhances the wine's complexity and flavor.

The rim diameter affects how you perceive the wine's aroma. Narrower rims are ideal for white wines, as they concentrate the aromas for a more intense sensory experience.

The height of the wine glass stem is important to prevent the wine from being warmed by the hand. Tall-stemmed glasses are more suitable for white wines, as they help keep the wine cooler.

The width of the base is designed for stability. Glasses with wider bases allow for safer serving without the risk of tipping or spilling.

Wine glasses are typically made from fine, high-quality glass. Thin glass allows for better appreciation of the wine's color and clarity, creating a more elegant drinking experience.

STEMWARE GUIDE

Rosé Wine: Enhancing Aromas

● ● ● ● ● ●

Rosé wine can be made from a wide range of red grapes, such as Grenache, Syrah, Pinot Noir, and Sangiovese. It gets its pink color from the skins of red grapes, which are briefly in contact with the juice. Proper glassware for rosé should feature a slightly tapered bowl to enhance the wine's delicate aromas and preserve its crisp finish. **Paris**, **Vienna**, and **Zagreb** are just a few of the LAV HORECA alternatives for serving Rosé.

Red Wine: Match Depth and Complexity

● ● ● ● ● ●

The color of red wine can vary widely, depending on the grape variety, the winemaking process, and the age of the wine. Red wine is often aged in oak barrels, which can impart flavors of vanilla, spice, and toastiness to the wine. LAV HORECA **Valencia**, **Nice**, and **Lyon** with larger bowls are excellent for most of the red wine varieties.

White Wine: Chilled Perfection

● ● ● ● ● ●

White wine is typically made from white grapes, but red or black grapes can also be used if the skins are removed before pressing. The reason white wine is typically served chilled is to enhance its refreshing, crisp flavors. The narrower-rimmed glasses, like LAV HORECA **Aspen**, **Sofia** and **Venice** wine glasses are designed to focus the fruity and floral notes of white wines while maintaining the ideal temperature for an extended period.

BEYOND THE BEVERAGE

LAV HORECA glassware isn't just for drinks. There is a large room to be creative! The **Glasgow** long drink glass holds a vibrant cocktail, while the **Zagreb** liqueur glass works perfectly as a stylish side serving for okra pickles. Repurposing glassware not only enhances presentation but also reduces the need for additional serving dishes, offering a cost-effective solution for your establishment.

ARCHIE

TIMELESS DESIGN, ENDLESS VERSATILITY

Inspired by timeless architectural forms, the **Archie** glasses feature elegantly curved arches that evoke the grandeur of classical buildings. These glasses are designed for professional use, offering durability and scratch resistance while making a visual statement. The **Archie** collection redefines drinkware for the modern HORECA industry,

The experience begins with a pre-dinner cocktail reception, where guests are welcomed with signature drinks like a Tom Collins or a Sparkling Elderflower Spritz served in the tall tumbler, its clean lines and graceful silhouette enhancing the visual appeal of the beverages. As the evening

transitions to the main course, the medium tumbler takes its place on the dining tables, offering a perfect vessel for water or a lightly chilled mocktail. Its balanced design complements the sophisticated table setting, harmonizing with linen napkins, modern cutlery, and artfully plated dishes. To conclude the evening, the short whiskey tumbler becomes the star in the after-dinner lounge, where guests savor single malt scotches, premium bourbons, or whiskey-based cocktails. Paired with small plates of chocolate truffles and candied nuts, these tumblers add a touch of architectural elegance to the cozy, upscale ambiance, perfectly embodying the timeless sophistication of the **Archie** collection.

CRAFTED FOR THE CHAOS OF THE KITCHEN

LAV HORECA's **Istanbul** glassware collection brings a perfect balance of practicality and sophistication to professional kitchens and bars. Featuring a highball glass, lowball glass, and a versatile carafe, the "**Istanbul Trio**" is crafted to handle the dynamic demands of modern hospitality, standing up to the pressures of service while elevating the presentation.

The lowball **Istanbul**, with its sturdy yet stylish build, serve as the perfect vessel for signature cocktails like an Old-Fashioned infused with rosemary and orange zest, or a refreshing Virgin Mojito layered with lime, mint, and crushed ice. Meanwhile, the highball glasses shine as they hold colorful non-alcoholic spritzers; perhaps a sparkling hibiscus lemonade with edible flower garnishes. At the center of a table, the **Istanbul** carafe will take the spotlight, filled with a vibrant fruit-infused water or a Sangria, allowing guests to refill their glasses at their leisure. This combination of the carafe and matching glasses creates a harmonious service, blending practicality with an unforgettable dining experience. The sleek, stackable design ensures easy storage and quick access, while the presentation highlights the versatility and elegance of the collection.

PLEASING HARMONY

In upscale and fine dining restaurants, the table setting transcends mere aesthetics; it embodies your identity and showcases your meticulous attention to detail as an establishment.

LAV HORECA's **Lyon** glass series embodies this philosophy of pleasing harmony, offering a product series that enhances coherence and sophistication at every table.

The harmony in each piece of the LYON series elegantly complements every glass on the table. Elegant and understated lines ensure that even water, wine, and cocktails turn each sip into a delightful experience for the taste buds. Design an elegant atmosphere for your venue, emphasizing professionalism and highlighting the quality and luxury that will leave a lasting impression on your guests.

ASPEN & PARIS

FINE-RIM BRILLIANCE, REFINED EXPERIENCE

In fine dining establishments, every detail counts from the polished ambiance to the flawless table presentation. Guests expect a luxurious, refined experience that reflects impeccable quality, while staff rely on durable, practical, and beautifully crafted products to deliver seamless service.

LAV HORECA glassware delivers precision and performance tailored for fine dining. The elegantly shaped wine glasses, with their thin rims and optimal bowl sizes, enhance the aroma and flavor profiles of premium wines, ensuring a true sommelier-approved experience. Water glasses, designed with stability and clarity in mind, complement both minimal and layered table settings. The versatile glassware range, from stemmed options to contemporary short tumblers, seamlessly adapts to multi-course tasting menus, formal table arrangements, and private dining events. With scratch-resistant surfaces and reinforced durability, LAV HORECA products not only maintain their pristine appearance through repeated use but also elevate the professionalism of every service.

WHISKEY GUIDE

EDINBURGH

Single Malt: Focus on the Nose

Single Malt Scotch is crafted exclusively from 100% malted barley and distilled at a single distillery in Scotland. Aged for a minimum of three years in oak barrels, its flavor profile is heavily influenced by the water source and the peat used during malting. For an optimal tasting experience, LAV HORECA's **Lyon** and **Paris** glasses are ideal. Designed with narrow rims to concentrate aromas and larger bowls for ample aeration, these glasses enhance the nuanced notes of single malts from the smoky and peaty Islay expressions to the light, floral Highland varieties. This collection is a staple for upscale whisky tastings and refined bar service.

LYON
page 65

PARIS
page 65

Blended Scotch: For Balanced Flavors

Blended Scotch combines single malt whiskies from multiple distilleries with grain whiskies, achieving a balanced and versatile flavor profile. Aged for at least three years in oak barrels, blends are often chosen for their smoothness, making them perfect for neat pours or on-the-rocks servings. LAV HORECA's **Helsinki** and **Bologna** glasses offer versatility and function, with their clean designs, sturdy bases, and proportions suitable for various serving methods. Their balanced structure accommodates blended Scotches with or without ice, while maintaining elegance for bar professionals who aim to serve high-quality spirits with precision and style.

HELSINKI
page 65

BOLOGNA
page 64

Bourbon: An American Heritage

Bourbon, America's signature whiskey, must be made from at least 51% corn and aged in new, charred oak barrels, which impart its signature caramel, vanilla, and oak-forward notes. Its fuller-bodied flavor and sweet undertones benefit from glasses that balance a wide bowl for evaporation with a generous rim to maximize flavor delivery. LAV HORECA's **Archie** and **Osaka** glasses are expertly designed for this purpose, offering wide bottoms for stability and ample surface area to release the whiskey's rich aromas. These glasses elevate bourbon service in bars and whiskey-focused venues, whether showcasing small-batch pours or premium aged selections.

ARCHIE
page 64

OSAKA
page 64

Rye: Bold Flavors and Classic Cocktails

Rye whiskey, made from a mash bill of at least 51% rye grain, delivers a bold, spicy, and slightly fruity profile that stands apart from other whiskeys. Its robust flavors shine in cocktails or on-the-rocks presentations. For bars specializing in high-quality whiskey service, LAV HORECA's **Athens** and **Girona** glasses are the go-to choice. Their short, wide profiles and heavy bases are ideal for muddling ingredients in classic cocktails like the Old Fashioned, while providing ample room for large ice cubes or whiskey stones. These glasses combine functionality with a timeless aesthetic, ensuring professionals can deliver both neat and mixed rye whiskey with ease and flair.

BEER BEYOND ORDINARY

The rise of craft beer has transformed the beverage industry, sparking a global revolution in taste, innovation, and presentation. Even the largest players in the beer world, from global brewers to regional giants, are embracing the trend, investing heavily in craft beer production to cater to evolving consumer preferences. In 2023, craft beer accounted for 24.7% of the \$117 billion U.S. beer market, translating to approximately \$28.9 billion in retail dollar sales.

For HORECA establishments looking to stand out, an exceptional craft beer selection is more than just a menu item, it's a statement of quality and care. LAV HORECA's extensive collection of beer glasses ensures every style, from IPA to stouts, is served in its ideal form, enhancing flavor, aroma, and the experience.

THE PROFESSIONAL POUR

"Highball glasses like LAV HORECA **Glasgow** have become my go-to for trendy, visually captivating cocktails like Beetlejuice. Its tall, structured design not only enhances the dramatic presentation of layered, colorful drinks but also invites creativity with garnishes and effervescent ingredients. Guests are drawn to the bold silhouette and love the feeling of holding something substantial yet elegant—it's an instant conversation starter that keeps the bar buzzing."

Beetlejuice

- 50 ml (1.7 oz) Ojo de Tigre Joven
- 20 ml (0.7 oz) Italicus
- 50 ml (1.7 oz) Fresh Beetroot Juice
- 20 ml (0.7 oz) Lime Juice
- 10 ml (0.3 oz) Citrus Blend

Fill a shaker with ice and add 50 ml (1.7 oz) of Ojo de Tigre Joven mezcal, 20 ml (0.7 oz) of Italicus, 50 ml (1.7 oz) of fresh beetroot juice, 20 ml (0.7 oz) of lime juice, and 10 ml (0.3 oz) of citrus blend. Shake vigorously until the mix is chilled and frothy. Double strain the vibrant mixture into a chilled LAV HORECA **Glasgow** long drink glass filled with fresh ice. Finish with a playful garnish, such as a dried beetroot slice, to highlight the drink's bold, earthy appeal.

Aykut Kayaalp

THE PROFESSIONAL POUR

"LAV HORECA's **Archie** tumbler perfectly elevates the Old Cuban, its architectural design beautifully framing the cocktail's deep amber tones and garnished finish. Guests instantly notice the quality of a glass in their hands and that tactile experience adds to the ritual of enjoying a premium cocktail. At the bar, details like this make all the difference, creating a refined impression that my patrons appreciate and remember."

Old Cuban

- 50 ml (1.7 oz) Havana 7-Year-Old Rum
- 15 ml (0.5 oz) Kahlua
- 2 dashes Orange Bitters
- 10 ml (0.3 oz) Citrus Blend
- 1 Coffee Bean (for garnish)

Fill a mixing glass with ice. Add 50 ml (1.7 oz) of Havana 7-Year-Old Rum, 15 ml (0.5 oz) of Kahlua, and two dashes of orange bitters. Incorporate 10 ml (0.3 oz) of citrus blend to brighten the profile, ensuring the cocktail remains well-balanced. Stir gently until perfectly chilled and diluted. Strain the mix into a LAV HORECA **Archie** tumbler over a large ice cube to maintain its integrity. Finish with a coffee bean garnish to complement the rich and aromatic flavors, letting the experience unfold with every sip.

COCKTAIL GUIDE

EDINBURGH, OSAKA, VERONA

Highball Glasses: Function and Style

High Ball or Collins glasses are essential for mixed drinks that require ample space for layering and presentation. Their elongated shape is ideal for cocktails that incorporate carbonated mixers, crushed ice, or muddled ingredients, creating an inviting visual effect.

LAV HORECA's design prioritizes both durability and elegance, meeting the demands of high-traffic bar environments. The glasses' slender profile ensures a superior grip, while their reinforced bases provide stability, making them perfect for a variety of beverages served in bars, restaurants, and catering setups.

Long Island Iced Tea, Mojito, Tom Collins, Cuba Libre, Bloody Mary...

ARCHIE
page 74

ATHENS
page 76

Lowball Glasses: Versatile Elegance

Low Ball glasses is designed for cocktails enhanced with soda or tonic and recipes with a higher alcohol content. Their structure ensures an ideal presentation for cocktails rich in ingredients or those served with larger ice.

The versatile nature of these glasses makes them a staple in HORECA establishments. While primarily associated with whiskey, they seamlessly adapt to classic cocktails prepared by shaking or stirring. Their medium size is optimal for drinks served with ice, whether utilizing the clarity of premium ice cubes or the distinct aesthetic of ice spheres.

Negroni, Mai Tai, Whisky Sour, Old Fashioned...

GLASGOW
page 78

Footed Cocktail Glasses: Iconic Serves

Footed cocktail glasses exemplify sophistication, tailored for low-volume cocktails such as martinis, margaritas, and other elegant beverages. Their shape enhances the visual impact of cocktails, while the wide rim facilitates an even spread of garnishes like citrus twists or salt rims. The range by LAV HORECA combines aesthetic refinement with practical considerations, ensuring they withstand regular use without compromising on style. Their ergonomic stem prevents heat transfer from the hand, maintaining the perfect temperature for every sip—a crucial feature for drinks requiring precision in serving.

Martini, Manhattan, Cosmopolitan, Side Car, Margarita...

NAPOLI & SEATTLE

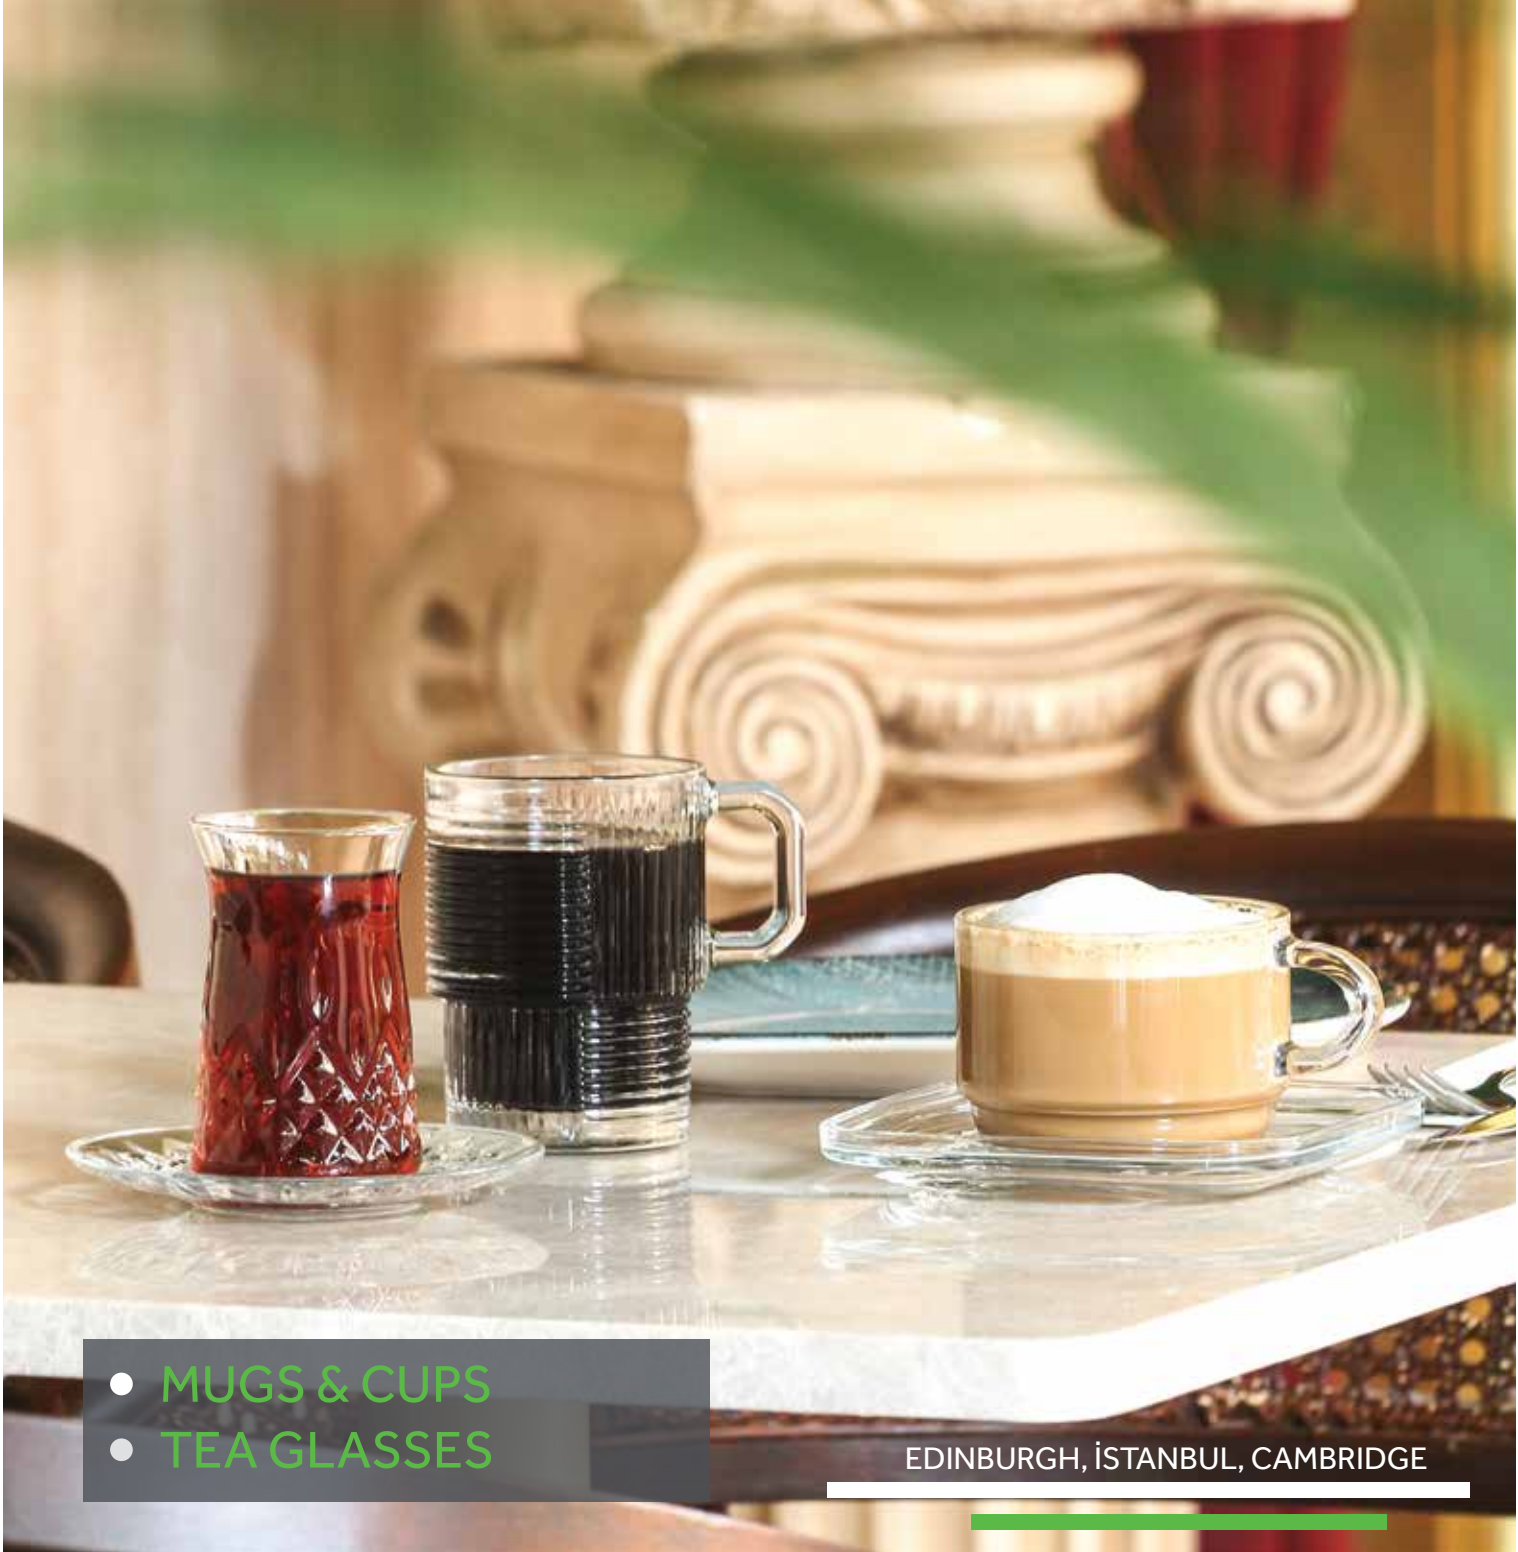

EVERY DETAIL MATTERS

In the world of HORECA, much like in a game of chess, the smallest elements can make the biggest impact on the competition. Shot glasses, like pawns on a chessboard, may seem minor, but their potential to create difference is immense. The **Napoli** footed shot glass brings a refined edge to any presentation, ideal for premium liqueurs or layered shots that demand visual attention. Meanwhile, the **Seattle** shot glass, with its sleek and minimal design, offers versatility and functionality that caters to a wide range of creative beverage concepts.

Whether for refined after-dinner liqueurs or bold cocktail shots, these glasses transform simple servings into statements. By focusing on the fine details, your establishment can deliver experiences that resonate, proving that even the smallest moves can shape the game.

As the demand for eco-friendly dining practices grows, restaurants, cafés, and bistros are seeking durable, sustainable alternatives to single-use plastics and paper packaging. LAV HORECA offers a sophisticated range of glass containers with lids, designed to meet the needs of modern food service operations. These containers not only align with environmental goals but also enhance the presentation of delivered or takeaway meals, reinforcing your establishment's commitment to quality and sustainability.

The LAV HORECA **Tokyo** line, celebrated with an IF Award, exemplifies elegance and practicality. Featuring

silicone lids, this range is ideal for customers seeking a reusable container with style. While not fully leak-proof, its secure fit makes it perfect for dry or semi-moist dishes.

For those requiring robust, leak-proof options, the LAV HORECA **Kyoto** line is the ultimate choice. This versatile range boasts a crowd-pleasing design with airtight, locked lids that ensure no spills during delivery. The latest addition to this line introduces three innovative models with dual compartments, allowing chefs to maintain the integrity of dishes by separating components. They're perfect for serving salads with dressings, rice with curries, or pasta with sauces.

THE ART OF COLOR

Any HORECA establishment seeking to infuse their presentations with creativity will find the new colored options in the Archie collection to be a pleasantly eye-opening surprise. Colored glasses create a visual statement that elevates the atmosphere and directs the guests' attention to the servings. Archie's distinctive design, paired with tempting colors—bold red for signature cocktails, warm amber for manly whiskey servings, deep green for refreshing high balls, or any other favorite color—will always add special touches and individuality not only to any table but also to its ambiance. The Archie colored glasses are as scratch-resistant and sturdy as the rest of the collection, with a focus on not just setting trends but

also durability. Richly colored, almost to the color of a jewel, intricate details—like architecture—pop, making each glass not only functional but also a decorative object.

LAV HORECA's colored glass family invite inspiration and creativity, encouraging bartenders and restaurateurs to pair settings with colors that complement their ingredients, themes, or even seasonal vibes. These glasses have the potential to transform even the most mundane serving into a visual sensation of exceptional class, leaving a lasting impression on people's minds and prompting them to return for more.

CARE & HANDLING GUIDE

At **LAV HORECA**, we understand that the performance and longevity of glassware play a critical role in the daily operations of businesses in the hospitality industry. Whether you manage a restaurant, supply a chain of establishments, or distribute to large institutions like hospitals, maintaining your glassware's durability and appearance is essential for providing high-quality service while managing costs.

This guide outlines best practices for handling, cleaning, and storing your LAV HORECA glassware to reduce breakage and extend its lifespan. By following these care instructions, you can ensure your glassware remains in optimal condition, enhancing both operational efficiency and customer satisfaction.

content

GENERAL HANDLING

- Avoiding Thermal Shock
- Preventing Mechanical Shock
- Proper Storage

CLEANING AND DISHWASHING

- Dishwasher Best Practices
- Polishing Techniques
- Bus Tray Management

USAGE GUIDELINES

- Safe Service Practices
- Dealing with Damaged Glassware

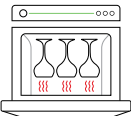

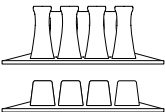

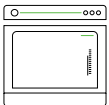

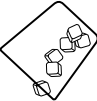

GENERAL HANDLING

Avoiding Thermal Shock Sudden temperature changes can cause glassware to crack or break due to stress:	Temperature Acclimation <i>Allow glassware to reach room temperature before exposing it to extreme heat or cold.</i>	
	Proper Liquid Handling <i>Avoid pouring cold liquids or adding ice into a warm glass. Similarly, do not immerse a warm glass into cold water.</i>	
Preventing Mechanical Shock Glassware can be damaged by physical impacts:	Gentle Handling <i>Be cautious not to hit glasses against hard surfaces, utensils, or other glassware.</i>	
	Avoid Stacking <i>Do not stack glasses unless they are specifically designed for that purpose.</i>	
Proper Storage Storing glassware correctly minimizes the risk of damage:	Use Compartmentalized Racks <i>Be cautious not to hit glasses against hard surfaces, utensils, or other glassware.</i>	
	Avoid Overloading <i>Do not overcrowd storage racks or overhead spaces; ensure glasses do not touch each other.</i>	

USAGE GUIDELINES

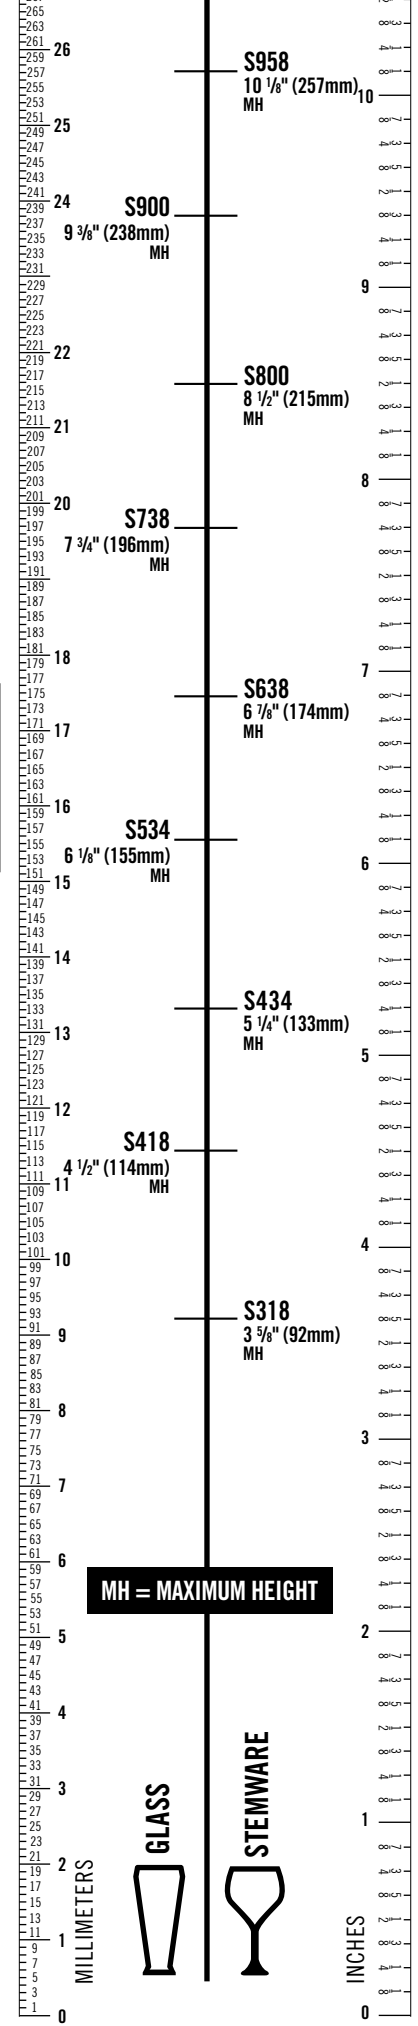

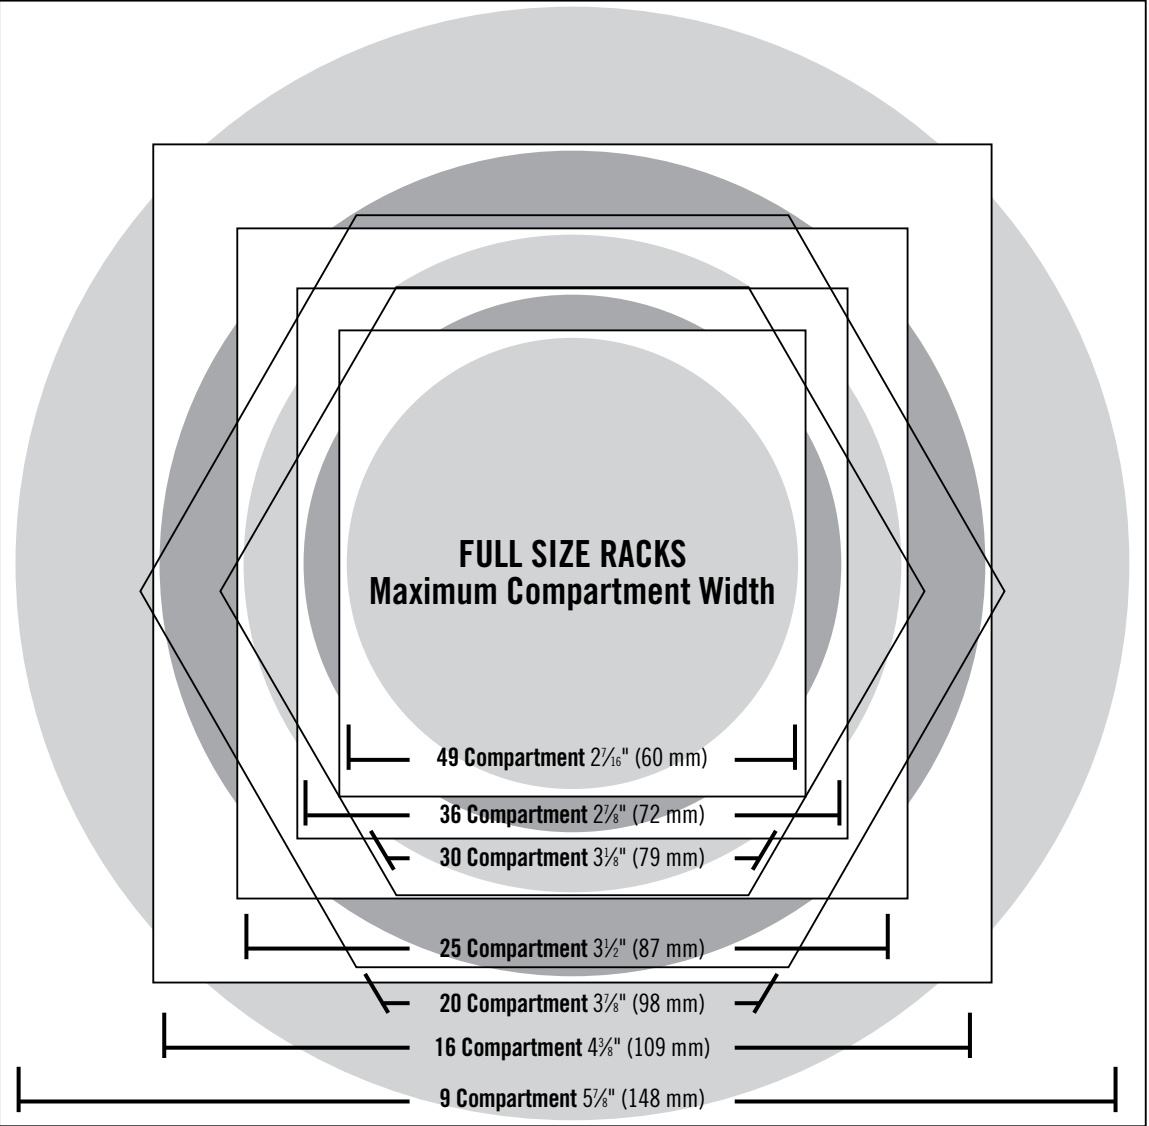

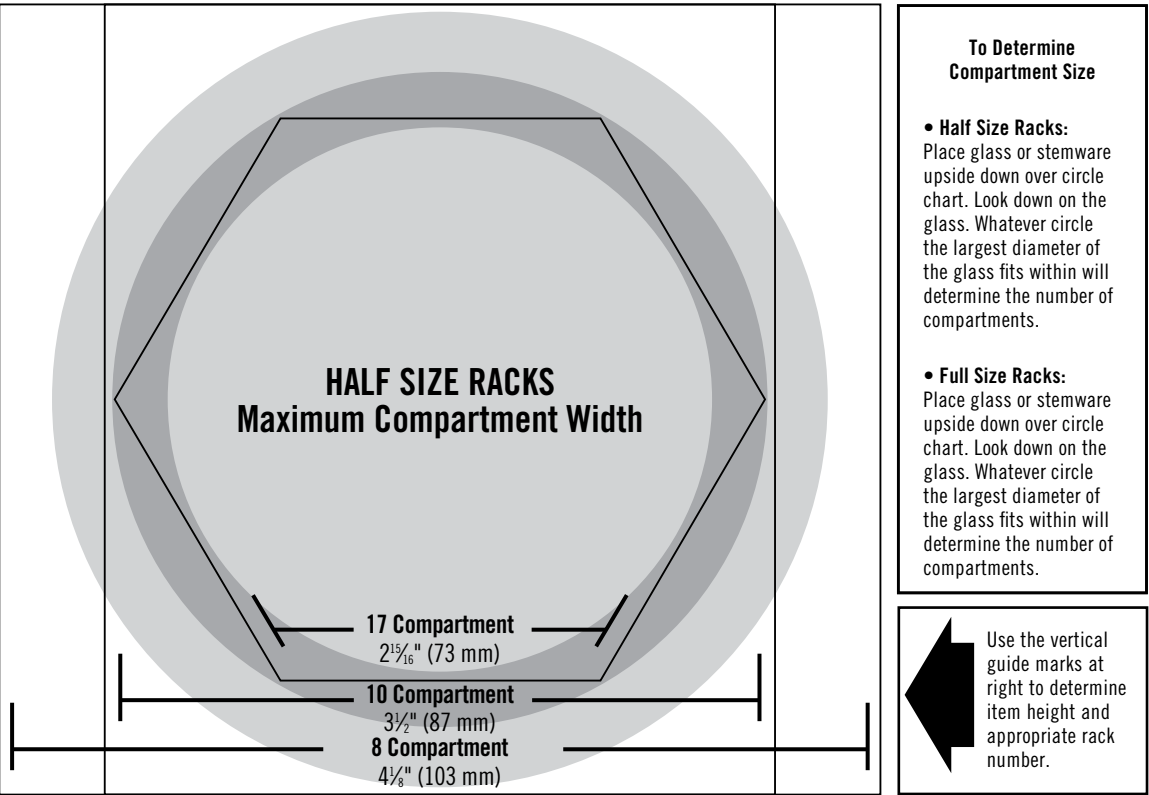

Safe Service Practices Enhance longevity and safety during use:	Proper Carrying Techniques <i>Do not carry multiple glasses together in a way that they might collide.</i>	
	Use Appropriate Tools <i>Always use a plastic scoop for ice instead of the glass itself.</i>	
	Preheat for Hot Beverages <i>Warm glasses with hot water before adding hot drinks to reduce the risk of thermal shock.</i>	
Dealing with Damaged Glassware Maintain safety and quality:	Immediate Removal <i>Take any chipped, cracked, or scratched glassware out of service right away.</i>	
	Regular Inspections <i>Frequently check glassware for signs of damage to prevent accidents.</i>	

CLEANING AND DISHWASHING

Dishwasher Best Practices To maintain glassware integrity during cleaning:	Temperature Considerations <i>Do not place warm glasses or those that have held ice directly into the dishwasher.</i>	
	Proper Rack Usage <i>Use appropriate racks to separate different types of glassware and avoid stacking.</i>	
	Controlled Dishwasher Temperatures <i>Set the wash cycle between 140°F and 160°F, and the rinse cycle at 180°F to prevent thermal stresssurfaces, utensils, or other glassware.</i>	
	Use the Right Cloth <i>Employ a microfiber or lint-free cloth for polishing.</i>	
	Handle with Care <i>Hold glasses by the stem or base to avoid putting pressure on the bowl, which could cause stress.</i>	
Bus Tray Management Efficient and safe clearing of glassware:	Avoid Overloading <i>Do not pile too many glasses into bus trays</i>	
	Separate Utensils <i>Keep flatware out of glasses to prevent scratching or breaking.</i>	
	Remove Ice <i>Empty any remaining ice from glasses before sorting and washing.</i>	

By following these guidelines, you will not only extend the life of your LAV HORECA glassware but also ensure a safe and enjoyable experience for your guests. Proper care reduces replacement costs and maintains the high-quality standards that LAV HORECA is known for.

LAV HORECA x CAMBRO
COMPATIBILTY GUIDE

Seamless Packaging Solutions Tailored for the HORECA Industry

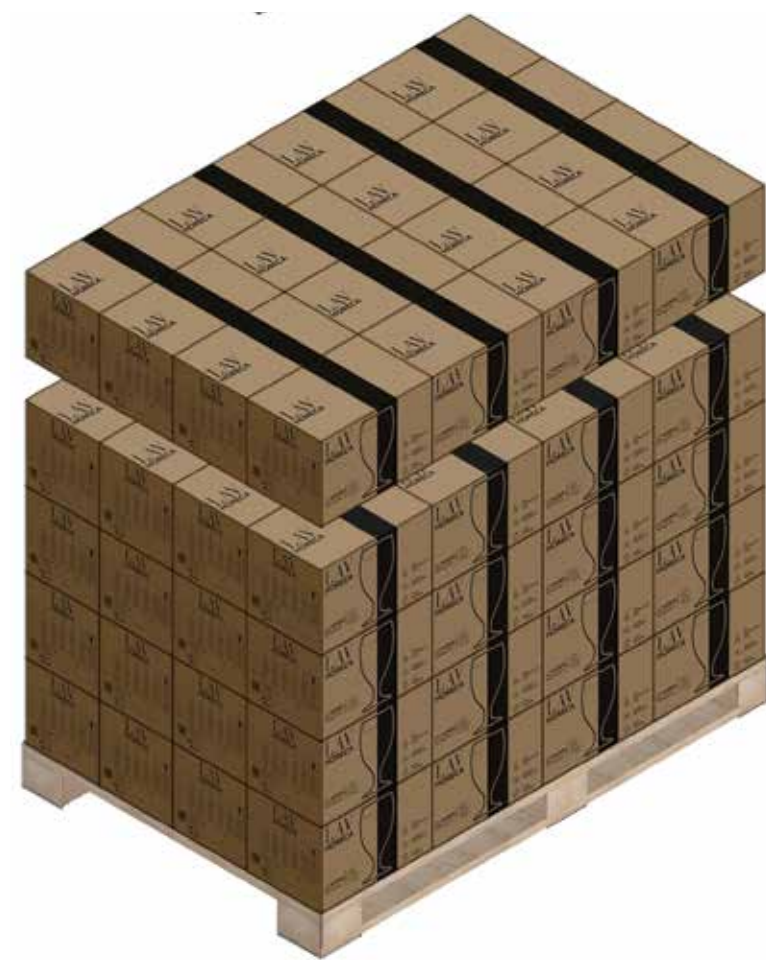

LAV HORECA understands the specific needs of the hospitality business. We can supply a full packaging solution suitable for tiny boutique cafés to large resort businesses. Carefully engineered packaging choices for safe transit and storage facilitate speedy movement in HORECA while also ensuring efficient glassware handling.

From compact 6-piece and 12-piece packs to larger formats that store more products, LAV HORECA packaging has been carefully designed to fit well on pallets. This ensures that logistics are simple while maintaining the greatest standards of safety and durability for our products, ensuring that your glassware arrives in perfect condition.
